Barišić Marenić	Industrijska arheologija	Industrial Archaeology	15L	1.0	En	

Language in which majority of courses are taught is Croatian. Each course offers consultative teaching in English. Some courses offer consultive teaching in Italian, German, French or Spanish.

Only up to 20% of all offered courses are taught in English – it is impossible to make 30 ECTS only in English!

If a student had completed 3 years of studies previous to mobility, he/she can enroll courses of 1st or 2nd semester of master studies and elective courses of each semester.

If a student had completed 4 years of studies (8 semesters) previous to mobility, he/she can enroll courses of 3rd semester of master studies (or lower). Elective courses student selects according to his/her interest.

Students are allowed to participate in lectures offered at other faculties of the University of Zagreb within **horizontal mobility** (it has to be arranged in accordance to mobility coordinators at both faculties at the University of Zagreb). After enrollment in Zagreb, student mobility coordinator at the host faculty could provide the student with the Approval form for the enrollment of elective courses. Student cannot enroll more than the certain percentage of total ECTS credits at other faculty within the horizontal mobility. It is suggested to have just one additional faculty. University of Zagreb is not a campus and faculties are spread all over the city of Zagreb. Students have to be aware that sometimes they have to prepare two Learning Agreements and will be provided by two Transcript of Records. Student can also enroll **Croatian language** as an international student at Croaticum or at the Faculty of Croatian Studies (4 ECTS; it was promoted as free of charge for Erasmus students – to be checked).
