

Teaching

- Six elective courses designed, accredited and delivered in the Bosnian universities.
- Two books per each Bosnian university that include a summary of the lectures delivered in the newly installed courses.
- Two Massive Open Online Courses (MOOCs) free of charge - openly licensed - open entry available on YouTube, website and Moodle available with English and Bosnian subtitles
 - "Healthy urban environment" [Overview](#)
 - MOOC 1 Healthy urban environment | Spatial Planning and Architecture
 - [Trailer](#)
 - [Introduction](#)
 - [Moodle: 9 lectures and 10 experts](#)
 - MOOC 2 Healthy urban environment | Engineering
 - [Trailer](#)
 - [Introduction](#)
 - [Moodle: 8 lectures and 3 experts](#)
- Three HURBE Laboratories installed and operational
- Video tutorials for the use of specialized equipment available on YouTube HURBE channel (EN-BS)
 - [How to measure non-ionised electromagnetic radiation](#)
 - [How to measure light intensity](#)
 - [How to measure the noise](#)
 - [How to use thermal camera](#)
 - [How to use the drone](#)
 - [How to determine the Ph value](#)
 - [How to measure temperature with IR camera](#)
 - [How to measure radioactivity](#)
 - [Measuring distance with laser meter](#)
- List of 52 best practices on HURBE topic (19 from BOSNIAN partners and 33 from other partners)
- Database of teaching and learning material, and bibliography from all partners
- Students final work (projects, reports, etc.) developed within HURBE courses
- Reports on HURBE Laboratories
- Rules on using the HURBE laboratories
- Organizational structures of the HURBE laboratories
